## Lounge information on the move

### Smart device applications

If you are an Apple, Android or BlackBerry user, we recommend you download the Priority Pass App. It's free to download and is ideal if you need lounge information on the move. Using GPS technology the app will find the nearest lounge available to Priority Pass Members – ideal if you are in a rush.

The app also includes great features like 'Lounge Images', 'Favorites' and 'Recent Searches'. Once downloaded you can use the app without being online and avoid expensive data-roaming costs whilst travelling. Be sure to refresh the lounge data on your app regularly though as lounge details do change.

Visit the applicable online app store today and search for 'Priority Pass' to download.

### 'Lounge Finder' – information direct to your mobile

If you don't have access to your Lounge Directory don't worry. Simply text the three letter airport code to our automated Lounge Finder service on +44 7624 809977 and you will receive details of all available lounges by return text\*.

Please send only the official three letter code for your chosen airport e.g. LHR for London Heathrow, or HKG for Hong Kong SAR International. If you're unsure of the airport code check your ticket or ask a member of staff. It is important that you do not include the terminal number, punctuation or any other information in your text message as doing so will generate no results.

*\* We cannot guarantee coverage from all networks in the USA, Japan or South Korea. Priority Pass is not liable for mobile operator errors. Mobile users are liable for all texts received.*

### Mobile-friendly website

Our website [prioritypass.com](http://prioritypass.com) is designed to work on desktop, tablet or mobile.

The website allows you to perform quick and easy lounge searches by simply entering any country, city, airport name or three letter airport code (e.g. 'LHR' for London Heathrow).
